

STAREFX - FABRIC COVERING

CREATE A SPECIFIC THEME, ATMOSPHERE OR MOOD SETTING

A revolutionary way of adding visual aesthetics to walls and ceilings with colour, images and lighting all integrated in one.

With water repellent features the fabric covering are used in outdoor, indoor and in chlorinated environments.

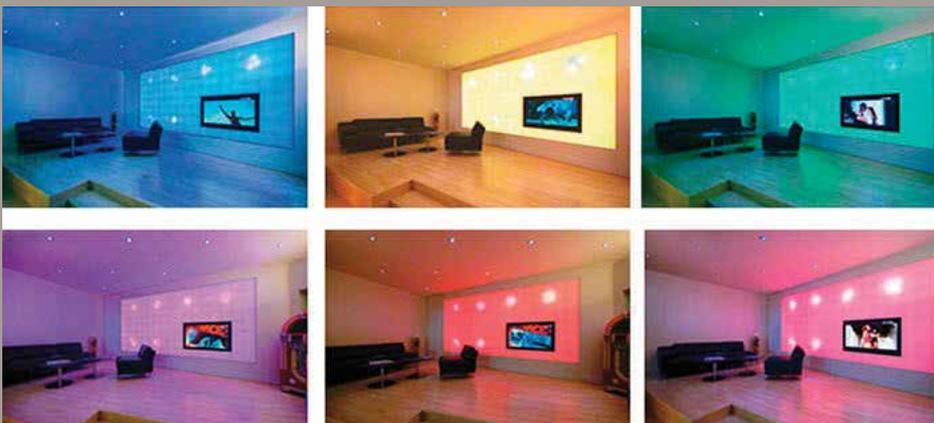

INNOVATIVE COVERINGS

Embellish walls and ceilings with your design

Lighting defines the appearance and perception of the space. It also creates a specific atmosphere and adds to our sense of well-being.

Decorate your ceilings and walls with photos, your own art work or work signed by talented artists, or any other image of your choice.

LightEFX can design, manufacture and install fabric wall coverings for the home, retail store and commercial buildings both indoors and outdoors.

If you're a builder or designer looking for that tailored solution whether constructing traditional, modular, prefabricated housings or multi-level buildings, LightEFX offers quick designs and easy installations.

With thousands of images to choose from and adding LEDs to backlight the feature, the fabric coverings will deliver a new dynamic to the room or space.

CHOICE OF CUSTOM PRINTED
DECORS

Sustainable development

Made from environmentally friendly raw materials of European origin to provide a light and non-toxic material.

An energy-efficient production method to reduce packaging volumes with minimum waste,

Finish product is a quick, clean and nuisance-free installation with very good longevity.

What is fabric coverings

Made of polyester weave coated with a polyurethane, fabric coverings are suitable for all styles of architecture and rooms of all shapes and sizes.

The material is translucent allowing the finished printed design to be backlit or even star lit for that extra eye catching animated visual aesthetic.

Prints are available up to 5.10 metres wide ensuring a perfect finish with no seams or joins.

NEW CONSTRUCTIONS OR RENOVATIONS

Indoor and outdoor applications

Building constructors, shop fitters, interior designers now have an alternative solution for an easily installed feature wall or ceiling.

Fabric coverings offer a decorative and functional purpose improving the building environment with less installation time.

Both practical and decorative, fabric coverings are perfectly adapted to every possible space within your establishment: restaurants, reception areas, seminar rooms, bedrooms, spas, swimming pools, bars, lounges, sports rooms, etc...

Thanks to the specially developed uniqueness for ceilings and walls, the covering contributes to the good acoustics of your environment and thus provides a source of comfort and wellbeing.
